

## Weather Workshop I

Let's plan a trip from Bellingham to Eugene. How can you effectively do a self-weather briefing. In this two-part seminar, we will step through a real-time weather briefing, and part the seas of abundant internet information in order to get those magical morsels of key information. This will be a great way to review your weather knowledge skills. I will be using real-time internet data to assist in our 'flight planning.' After this seminar, you will have a much better arsenal of weather briefing knowledge and tools, such as icing potential satellite interpretation and model guidance.

**Directions:** Western Washington Fairgrounds are located in Puyallup, just off Hwy 512 at the corner of S. Meridian and 9th Avenue SW. Enter fairgrounds through the Blue Gate. This seminar will be held in Room D, Heritage Room.

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
